SEMINARIO IN PRESENZA

Invito aperto a tutti gli interessati

Programme:

18.00 Introduction: Marco Turati

Session I:

18.05 Learning from Australia: Medical Education and Fellowship System (Jaideep Rawat)

Continuing education and training are crucial for medical students and residents. This seminar explores Australia's medical education system, including fellowships. It will provide insights into training dynamics and opportunities for interaction and cooperation. Attendees will learn about program structures, evaluation methods, and career pathways. This is a unique opportunity for those interested in international medical training collaborations.

18.20 Discussion

Session II:

18.35 Insights into Pediatric Foot and Ankle Conditions: Updates and Surgical Techniques

The second part of this seminar focuses on foot and ankle conditions in skeletally immature individuals. A leading expert in the field will share their experiences and the latest surgical techniques. Updates and innovative approaches to managing these conditions will be discussed. Participants will have the opportunity to delve into this specific topic through interactive discussions. This session is ideal for those looking to enhance their skills in pediatric foot and ankle care.

18.50 Discussion
